

**CANADIAN
JOINT
FREIGHT**

CLASSIFICATION

No. 9

TAKING EFFECT

JUNE 1st, 1893

Superseding Classification No. 2
of October 1st, 1891, and Supplement
thereto.

NOTE IMPORTANT CHANGE

SUPPLEMENT No. 2
TO
Canadian Joint Freight
Classification, No. 9,

of June 1st, 1893.

Taking Effect Feb. 12th, 1894

Including and superseding items
in Supplement No. 1

SPECIAL REGULATIONS AND CONDITIONS.—Add—Goods in paper packages should be shipped by express ; or if by freight, in oiled or heavy brown paper, well wrapped and corded.

No. 7, Feb. 10th, 1890.

No. 8, Oct. 1st, 1891.

Explanation of Terms and Characters used

The number of the Class is given opposite each article :—
1, 2, 3, 4, 5, 6, 7, 8, 9, 10, stand for first, second, third, fourth, fifth, sixth, seventh, eighth, ninth and tenth classes respectively; $1\frac{1}{2}$ stands for once and a-half first class; D-1 for double first class; 3-1 for three times first class; 4-1 for four times first class; C.L. stands for carload; L.C.L. for less than carload; O. R. stands for owners' risk; K. D. stands for knocked down; S. D. stands for single deck; D. D. for double deck.

Articles not enumerated should be classed with similar or analogous goods.

For Tables of Estimated Weights, etc., see pages 57-60.

Special Regulations and Conditions

Rule 1. The minimum weight for carloads of 1st, 2nd, 3rd, 4th, 5th, 6th and 9th Class Freights, is 20,000 lbs. per car; and for 7th, 8th and 10th Class Freights, 24,000 lbs. per car, unless otherwise specially stated. Carloads to be entitled to C.L. rate, must be from one Shipper to one Consignee. All cars may be loaded up to their full capacity at L.C.L. or C.L. rates, as the case may be. Refrigerator cars, when supplied for perishable or other freight, will be charged ordinary rates for 1st, 2nd, 3rd, 4th, 5th or 6th Class traffic, but if traffic lower than 6th Class be loaded the minimum charge will be C.L. at 6th Class rate.

2 Mixed freight will not be taken at C.L. rate, but each description must be weighed, and charged as per classification, except as otherwise provided for in this classification, but when a number of different articles of the same class in carloads embraced in one line of trade are shipped at one time by one shipper to one consignee at one point of delivery, in full carloads, they shall be taken at the rate per hundred pounds for such class in C.L. This rule will not apply on mixed shipments of Groceries, Hardware, Dry Goods, Iron, etc., but only to different articles of one straight line of trade. In order to entitle a shipment to the carload rate, a quantity not less than the minimum carload weight must be delivered at one station, in one day, consigned to one consignee and destination. Agents at destination will not distribute carload shipments of property among two or more consignees. Agents will not send notice of arrival to more than one party, and will make only one expense bill for the charges on the entire carload. In case one party will not accept notice of arrival as consignee and pay the charges on the entire carload and take delivery of the same, agents are required to make separate notices and expense bills, and correct the way-bill and collect on each shipment at the less than carload rate.

3. When more than the carload weight of one article is shipped in one day by one consignor to one consignee, the established rate for a carload should apply on the entire lot, although it may be less than two full carloads, (except as noted in latter part of this rule); the actual weight of the balance to be charged for at the C.L. rate, reference being made on the waybill for the balance of the lot, to the waybill for the full carload or loads.

This, however, will not apply on shipments of Agricultural Implements, Machinery, Live Stock, Vehicles, Furniture, Woodenware, Baskets, Empty Barrels, Casks or Boxes, Flour, Hay, Coal, Scrap Iron, and all bulk freights commonly carried in C.L. lots, as Grain, Mill Feed, Lumber and other rough forest products, Joiner's Work, Lime, Brick, etc.; also all light or bulky goods which will not load 20,000 lbs. per car. In all such cases excess lots for which an extra car is necessary will be charged at the L.C.L. rates.

4. Freight from one Shipper to one Consignee should not be charged more for a smaller than for a greater quantity where varying quantities of the same description of goods are classed differently. For instance; 129 bbls. apples or under should not be charged more than for 130 bbls.; 140 bbls. flour should not be charged more than for 150 bbls.; nor should an L.C.L. weight at a higher class be charged more than the sum for a C.L. where C.L. classification of the same freight is given.

5. Where C.L. is not quoted, the classification given is to apply irrespective of quantity.

6. All articles, except as otherwise specified, will be taken at actual gross weight, provided, however, that any article not otherwise provided for herein, too large to be loaded in an ordinary box car and requiring a platform car for carriage (whether full capacity of car be occupied or otherwise), if 6,000 lbs. weight or under will be charged a minimum of 20,000 lbs. 10th Class, if over 6,000 lbs. and up to 12,000 lbs. will be charged a minimum of 20,000 lbs. at 7th Class, and if over 12,000 lbs. a minimum of 20,000 lbs. at 6th Class. These minimums will not apply in cases where the actual gross weight as per Classification would give a higher charge. This arrangement will not apply west of Port Arthur.

7. All articles marked at O.R. in this Classification, must be so receipted for by Agents, and the words OWNERS' RISK written in full on the Shipping Notes and Receipts. Articles marked RELEASED must also be so receipted for, and Shippers or Owners must duly execute a Release in Duplicate on the Company's Forms. Provided, however, that in cases where shippers decline to accept such receipts endorsed "owner's risk," or to sign such releases, the goods may be received for shipment on ordinary shipping notes and receipts without above endorsement at fifty per cent. in addition to the rates which would be charged if

shipped at owner's risk ^{or} released, with the exception of plate glass, which will be at double the rates which would be charged if shipped at O.R. Released.

8. Special attention is directed to articles marked as "Not taken unless by special contract, etc." Agents must always apply for rates, and for permission to carry such traffic before accepting or receipting for it.

9. DYNAMITE, DUALINE, GUN COTTON, GIANT POWDER, HERCULES POWDER, OR OTHER EXPLOSIVE COMPOUNDS not provided for in this Classification, will not be received or transported.

10. Grain, Bran, Feed, Malt, etc., in bulk, and all other bulk Freight, must always be receipted for "more or less," and these words written in full. Agents, however, must in all cases obtain from shippers a full statement or declaration on shipping bills of the correct quantity of all bulk freight loaded in or

on each car: such declaration should show quantity, weight or measurement, in accordance with the common or commercial standard under which such traffic is sold, such as:—Bush, Wheat, Peas, Barley, Potatoes, etc. Tons Bran, Feed, etc. Square feet, or toise Stone, etc. Feet (board measure) Lumber, etc. Thousands Lath, Shingles, Staves, etc. Cords Wood, Stave Bolts, Bark, Posts, Shingle Bolts, Slabs, Poles, etc.—with statement as to description, and whether "green," "partly seasoned," or "dry," of all forest products. In signing receipts, agents must be particular to note "said to be" as to quality and "more or less" as to quantity.

11. All heavy Freight, of 2,000 lbs. or over per piece or package, of 1st, 2nd, 3rd, 4th and 5th Classes; also heavy Freight, and all bulk Freight, in 6th, 7th, 8th, 9th and 10th Classes, is to be loaded and unloaded by Owners. At points where the Companies provide a cartage service, it must be understood that heavy articles, and bulk Freight above referred to, will not be carted or handled by the Companies, unless by special arrangement, and at the expense of the Owner, in addition to the rate.

12. BULK FREIGHT in less than car loads will not be taken.

13. When Fruit, Vegetables and other property, liable to damage by frost, are shipped in winter (Nov. 1st to April 30th, except as per Note below), one man will be passed free with one or more cars to care for the fires and protect the property from freezing. No return pass to be given. The stoves, if returned, to be charged same as "empties returned." When Shippers put stoves in cars, Agents must see that all reasonable precaution is taken against damage to the car or train, and receipts in all such cases must be given at "Owners' risk of fire." Passes will not be given to men in charge of Trees or Shrubbery.

NOTE.—Perishable Freight for Manitoba and the North-West must be prepaid between October 10th and May 20th.

14. Agricultural Implements, Machinery, Vehicles, and other bulky traffic on flat cars, should not be loaded to exceed eleven feet six inches in extreme height above the top of the rail, and nine feet in extreme width, and should be well secured by iron rods, wire, or wooden bars passing over the load and connecting the upper ends of the stakes in such a manner as to prevent spreading. When these conditions are not complied with, the Companies reserve the right to either refuse the freight, or to remove any excess from the car and forward it on another car, at full rates as per classification.

15. In all cases in this Classification the terms "in boxes, barrels, or packages," must be understood to mean that the boxes, barrels, or packages must be complete with headings of same material, so as to thoroughly protect the contents—canvas or wire headings not being considered sufficient.

16. Contents of all packages, as near as possible, must be stated on shipping notes, and any package containing articles of more than one class will be charged the rate for the highest classed article contained therein.

17. Small consignments of one class (except Gunpowder), or including articles of several classes, will be charged at actual weight, according to the classification of each article, but no single shipment will be taken for less than 100 lbs., at 1st class; minimum charge, 35 cents, which will include cartage at one cartage point, and 45 cents if carted by the Companies' cartage agents at two cartage points.

" O.R. of breakage, leakage or freezing —mixed cars in wood and cases. When loaded with 20,000 lbs. or over in wood, will be 5th class for the wood, and 4th class for the cases in same car.	

Shipments of high-class liquors, such as Champagne, Burgundy, Moselle, etc., must be released.

Litharge.—Same as Lead, Red.

Lithographic Stones, in boxes, O.R. 1

Live Stock will only be carried at owners' risk; to be loaded, unloaded and fed by owners at their expense and under the following regulations:

In carloads, full actual weight should be charged for, but not less than the following minimums:

Horses.....	20,000 lbs.	9
Cattle.....	20,000 lbs.	9
Live Hogs, S. D.....	20,000 lbs.	9
Live Hogs, D. D.....	28,000 lbs.	9
Sheep, S. D.....	18,000 lbs.	9
Sheep, D. D.....	26,000 lbs.	9

Calves, under six months' old, same as sheep.
" six months' old or over, to be rated same as Cattle.

Hogs, Sheep, Calves or Small Animals must not be loaded under large Animals or Cattle in the same car. *In all cases* where large and small animals are shipped together in same car, they must be kept separate by a partition or by partitions, which must be put up by the shippers at their expense and at their risk as to sufficiency or otherwise. This rule, however, will not be applied to milch cows with their calves.

Horses or Cattle loaded with Hogs or Sheep in mixed carloads, or Horses loaded with Cattle, to be kept separate by a partition, will be charged at the weight for Cattle in carloads and at the highest rate for either.

Cattle and Hogs in mixed carloads, loaded in single-deck cars, will be charged at the weight and rate for Cattle.

Hogs and Calves, or Hogs and Sheep or Hogs, Sheep and Calves, in mixed carloads, will be charged for at the weight for Hogs in carloads, and at the highest rate for either; Calves not six months old being subject to the rate for Sheep.

When shippers are allowed to double deck, or partially double deck cars, a quarter deck will be charged 2,000 lbs. extra; over a quarter and not over half a deck, 4,000 lbs. extra; over half a deck full charge for double deck. The cost of putting in part decks to be borne by the shipper, but when full double deck rate is charged \$5 will be allowed the shipper for putting in the extra deck.

Fowls or Poultry, in packages, in mixed carloads with Cattle or Horses, Sheep or Hogs (the Cattle or Horses, Sheep or Hogs, to be kept separate from each other and from the Fowls or Poultry), will be charged at the weight for Cattle in carloads, and at the highest rate for either.

When more than a carload of Live Stock is offered, the surplus should take less than carload weight and rate.

Live Stock—(Continued) :—

Live Stock in Palace or other Patent Stock Cars will be in all respects subject to the maximum and minimum weights established for the conduct of such traffic in the regular live stock cars of the roads interested.

Owners or drovers may be taken free on the same train with their Live Stock, in consideration of their assuming the risks and obligations mentioned in the contract to be signed by them, and under the following conditions :

One, two or three cars, one person. Four, five or six cars, two persons. Seven, eight, nine or ten cars, three persons.
Over ten cars in one lot, four persons.

RETURN PASSES WILL NOT BE GIVEN.

**LIVE STOCK IN L.C.L. LOTS, AS
FOLLOWS :—**

Bulls, under one year old.....	1,000 lbs. each	1
Bulls, one year and under two.....	3,000 lbs. each	1
Bulls, over two years.....	4,000 lbs. each	1
Cattle or Horned Animals :		
One animal.....	2,000 lbs.	1
Two animals.....	3,500 lbs.	1
Three animals.....	5,000 lbs.	1
Each additional animal in same car.....	1,000 lbs.	1
Calves :		
Under six months old.....	500 lbs.	1
Over six months and under one year.....	1,000 lbs.	1
Cow and Calf together.....	2,500 lbs.	1
Colts, under six months' old.....	1,000 lbs.	1
Hogs, Goats, Sheep and Lambs, not crated, not taken except by special authority.		
Hogs, Sheep, Lambs or other small animals, in boxes or crates, actual weight.....		D1
Horses, Mules, etc. :		
One animal.....	2,000 lbs.	1
Two animals.....	3,500 lbs.	1
Three animals.....	5,000 lbs.	1
Each additional animal in same car.....	1,250 lbs.	1
Mare and Foal, together.....	2,500 lbs.	1
Stallions and Jacks.....	4,000 lbs.	1
Shetland or Welsh Ponies, one animal.....	1,200 lbs.	1
Shetland or Welsh Ponies, each additional animal in same car.....	1,000 lbs.	1
When other animals are shipped in cars with a mare and foal, or cow and calf, together, under the above special weights, the other animals are to be rated and charged for without reference to the weight charged for the Mare and Foal or Cow and Calf.		
When other animals are shipped in cars with Bulls, Stallions or Jacks, they are to be rated without reference to the specific weights charged for the Bulls, Stallions or Jacks.		

Live Stock—Continued :—

When small animals are allowed to be taken without being crated, the following will be the minimum weights charged :

A single Calf, Sheep, Lamb, Pig or Hog, 400 lbs. each, or actual weight if in excess of 400 lbs.....

Each additional Calf, Lamb, Sheep, Pig or Hog, in same car to same consignee, 200 lbs., or actual weight if in excess of 200 lbs.

In no case shall the charge for less than carload exceed the charge for a carload.

Owner or agent must accompany each consignment of Cattle or Horses in C. L. or less when the distance is over 100 miles.

Men in charge of L. C. L. lots of Cattle or Horses, on the same train only, will be charged half the ordinary 1st class fare, in consideration of their assuming the risks and obligations mentioned in the contract, and this amount must be shewn as a separate item on the waybill.

No reduction will be made for men in charge of L. C. L. lots of Hogs or Sheep.

SPECIAL REGULATIONS GOVERNING THE RATES UPON LIVE STOCK GIVEN ABOVE, AND RULES APPLYING TO ORDINARY LIVE STOCK OFFERED FOR TRANSPORTATION :—

Agents must thoroughly familiarize themselves with the following, and take particular care to acquaint consignees, or their agents, with the requirements of the Company before accepting Live Stock for transportation.

All shipments of Live Stock must be consigned direct to the party or parties to whom same is to be delivered at destination, and will not be received for transportation when consigned to the order of "....." or notify "....."

The rates and classification of Live Stock as given above, are based upon the following maximum values :

Horses or Mules, not exceeding \$100 each.

Cattle or Cows, not exceeding \$50 each.

Fat Hogs or Fat Calves, not exceeding \$10 each.

Sheep, Lambs, Stock Hogs or Stock Calves, not exceeding \$5 each.

If a full carload from one shipper to one consignee, entire contents of car not to exceed \$800

Live Stock will be taken at the above weights, rates and values only when the Company are fully released, in accordance with the terms of their special Live Stock Transportation Contract, which shall be duly filled up and executed by the shippers, owners, or their agents, and by the station agent, on behalf of the Company, and the person or persons travelling with such Live Stock, and receiving free transportation as aforesaid, shall be duly au-

Live Stock—(Continued):—

thorized to sign such contract, or contracts, on behalf of the owners or shippers of such Live Stock.

In cases where shippers, owners, or agents decline to enter into such contract, the traffic may be taken at double rates, under ordinary liability as common carriers, on the ordinary shipping notes and receipts of the Company, in which case shippers, owners, or agents must declare the value of the animals; and in the event of such valuation being in excess of the above figures, the regulations below will goVERN.

The Company does not agree to transport Live Stock by any particular train within any specified time, nor in time for any particular market, and agents must not give receipts containing such guarantees. Neither will the Company be responsible for any loss or damage occurring by the refusal, failure or inability of connecting lines to receive and forward the stock after tender of delivery.

When stock belonging to two or more persons, or when consigned to different parties, is loaded in same car, or when loaded in way-car, a distinguishing mark should appear upon each head of stock. A tag, securely fastened to the halter, will be sufficient for Horses or Mules. Upon Cattle or small stock, one or more initial letters should be marked upon the side of each head of stock. Corresponding initials should be placed opposite the name of consignee on the way-bill or manifest so as to insure correct and prompt delivery at destination. And in the event of the owner or owners neglecting to comply with the foregoing provisions, or insufficiently marking their stock, the Company shall have the right in their discretion to deliver the same to any one of the consignees without liability to the others of such consignees.

Fancy Small Stock requiring special care, should be in cages, or coops, or boxed; and agents will recommend owners to forward such animals by regular express line, which has agents in charge to care for them.

Animals known to be vicious, or so spirited that they cannot safely be placed alongside of other stock, and Mares with colts alongside, will not be received unless released.

The Railroad Company does not assume any risks from the acts of the animals themselves, or to each other, such as biting or kicking. Such risks must always be borne by the owner. Nor will the Company be responsible for any stock escaping. Nor will the Company hold itself liable for injury to Calves, Hogs, or other stock, from suffocation, exhaustion, heat or cold.

Live Stock—(Continued):

Except when shipped in a full car, sucking Calves, accompanying Cows, will be charged for in the manner provided for such like small animals.

In case of accident, unavoidable delay or other reason, because of which it becomes necessary to send Live Stock forward unaccompanied, it will be permissible to do so; and if for this or other reason, feed is furnished for the stock by or through the Railroad Company, a charge will be made for the same and collected from the consignee upon delivery. Agents will note such charges or expenses on the way-bill or manifest and advise agent at destination by telegraph.

SPECIAL REGULATIONS FOR LIVE STOCK AND VALUABLE ANIMALS.

Race Horses, Stallions, and other high-priced animals, when shippers are unwilling to have them transported at the above list of values for ordinary Stock, will be taken only by special arrangement and at ONE AND ONE-HALF 1ST CLASS RATES, calculated on the estimated weights named below, and agent must not accept for shipment such valuable animals without first communicating with the General or Divisional Freight Agent.

When value of each animal exceeds:—	And is not over:—	For one animal charge:—	For two or more animals in same car, to one consignee, charge each:—
\$	\$	Pounds.	Pounds.
100 00	400 00	4,000	3,000
400 00	600 00	4,500	3,500
600 00	800 00	5,000	3,700
800 00	1,000 00	6,000	4,500
1,000 00	1,500 00	8,000	6,000
1,500 00	2,000 00	10,000	7,500
2,000 00	2,500 00	12,000	9,000
2,500 00	3,000 00	14,000	10,500
3,000 00	3,500 00	16,000	12,000
4,000 00	4,500 00	20,000	15,000
4,500 00	5,000 00	22,000	17,500

Animals of greater value than given above will be subject to a corresponding advance in weights furnished in the above table.

Cattle, or small animals valued by Shippers at more than the maximum valuations given for ordinary stock and not over \$100

Live Stock—(Continued):

each, will be rated at 200 lbs. extra for every additional \$10 or part thereof in value until the charge for animals over \$100 each is reached, when the latter and succeeding valuations in above table will apply. In cases where the owner, shipper or agent of such valuable animal or animals refuses to sign a special agreement for the transportation of such animal or animals and instead upon the Company taking the same, the common law liability, in such cases, rates for transport without special agreement shall be three times the first class rate as fixed above.

Lobsters, Fresh, in casks or boxes, O.R. 1
" in tins.—See Canned Goods.

Logwood and Logwood Extract.—Same as Dye Stuff.

Looking Glasses.—See Glass Mirrors.

Lumber, Common, and other, to be loaded and unloaded by owners, will only be carried at the convenience of the Company, and at the risk of the owners, shippers furnishing their own stakes. Lumber, Common, to include:—

Ash, Birch, Beech, Cherry, Cedar, Chestnut, Elm, Hemlock, Hickory, Larch, Maple, Oak, Pine, Poplar, Spruce, Sycamore, Tamarack, Willow, Staves, Laths, Shingles, Clapboards, Bolts, Edgings, Slabs, Shooks, Heads, Hoops, Hoop and Hop Poles, Ship Knees, Blocks, Raftsmen's Floats, Oars, Traverses, Toggles and Withes, Pegwood, Poplar and Pulp Wood.....

4.....10

Lumber, common, planed, tongued and grooved..... 4.....10

Rails, Fence Posts, Telegraph Poles and Ties of all descriptions, will only be taken by special contract.

Mahogany, Rosewood, Walnut, Lignum Vitæ, and other valuable Hardwoods..... 3.....7

NOTE.—All cars with Lumber should be loaded to their full capacity, as marked upon them, at C.L. rate per 100 lbs. Cars without capacity marked upon them, should only be loaded with 24,000 lbs. All excess over the capacity of cars up to 2,000 lbs. each, shall be charged proportionate C.L. rate, but if the excess be over 2,000 lbs., the whole excess over the capacity of the car shall be charged L.C.L. rate as above; and the Companies reserve the right to remove all the excess, at the expense of the owner, and forward the same on another car.

Turnips, per bushel.....	56

CORDWOOD.

	Green.	Dry.
	Lbs.	Lbs.
Hickory, per cord of 128 ft.....	5,000	4,000
Beech and Maple, “ “.....	4,500	3,750
Poplar “ “.....	5,000	4,000
Pine “ “.....	3,500	2,500
Hemlock, “ “.....	4,000	3,000
Tamarac, “ “.....	5,000	4,000

STAVE BOLTS.

	Lbs.
Oak, green, per cord.....	5,300
Ash and Elm, “ “.....	4,600
Maple, “ “.....	4,500

“Dry” Cordwood should be cut and piled at least 6 months.

To ascertain contents of a car of Cordwood or Stave Bolts:—Multiply the length, breadth, and height (in feet) together, and divide by 128.

Thus:—Car 30 ft. long, 3 ft. 6 in. high, 8 ft. wide:—

$$30 \text{ ft.} \times 3 \text{ ft. 6 in.} \times 8 \text{ ft.} = 840 \div 128 = 6.56 \text{ cords.}$$

ALLOWANCES IN WEIGHT FOR LININGS AND RACKS.

When computing weights on basis of marked tare, the following deductions should be made from scale weights, when cars are lined or racked:—(for extra tare of car)—

On box cars loaded with perishable property, when lined by shipper, 1,500 lbs.

On flat and gondola cars, when “racked,” loaded with bark—for racks, 1,500 lbs.

Cars loaded with agricultural implements, vehicles or stoves—the weight of the rack or lumber used, but not more than 1,500 lbs. for platform and 1,000 lbs. for box cars.

No allowances will be made for racks or stakes used on cars loaded with lumber, for grain doors, or for boards in doors of cars loaded with bulk freights.

TABLE OF ESTIMATED WEIGHTS—Continued.

LUMBER, ETC.	Green. Lbs.	Partly Seasoned. Lbs.	Dry. Lbs.
White Pine, White Wood, Bass- wood, per 1,000 feet.	3,500	3,000	2,700
Butternut, Chestnut, Red Pine, Norway or Yellow Pine, Hem- lock, Spruce, per 1,000 feet.	4,000	3,500	3,000
Ash, Elm, Maple, Cherry, per 1,000 feet.	4,500	4,000	3,500
Oak, Walnut Hickory, Birch, Beech, per 1,000 feet.	5,000	4,500	4,000
Shingles (18-inch), per 1,000.	375	350	325
" (16-inch), per 1,000.	350	325	300
Lath, per 1,000.	600	525	450
Bark, per cord.	3,500	3,000	2,400
Staves, finished, for Oil, Pork, and Beef Barrels, per 1,000.	3,750	3,375	3,000
Staves, sawed, unfinished, for Oil, Pork, and Beef Barrels, per 1,000.	4,375	3,925	3,500
Staves, rough, for Oil, Pork, and Beef Barrels, per 1,000.	5,000	4,500	4,000
Staves, manufactured, for Flour Barrels, per 1,000.	1,250	1,125	1,000
Cedar Posts, or Bolts, for Block Paving, per cord.	3,500	3,000	2,500
Shingle Bolts, per cord.	3,500	3,000	2,500
Slabs—Hardwood, per cord.	5,000	4,000	3,000
Slabs—Pine, Spruce and Hemlock, per cord.	4,000	3,000	2,400
Telegraph Poles, per cord.	4,000	3,500	3,000
Ties—Hemlock, Pine Spruce, Tamarac, each about.	160	150	130
Ties—Cedar, Sawn Pine, each about.	140	120	100
Hoops, Hoop Poles, Hop Poles, per cord.	3,500	3,250	3,000

Above estimates are for "Dry Lumber," cut and piled 4 months or over; "Part Seasoned," cut and piled at least 2 months, and all under 2 months cut is "Green."

To find contents in inch measure of a car of Lumber multiply the length in feet, the width in feet, and the height in inches together, the product will give the number of feet, inch measure.

Thus:—Car 14 ft. long, 8 ft. wide, 60 in. high:—

$$14 \times 8 \times 60 = 6,720 \text{ feet.}$$

Allowance should be made for waste space (if any) between the boards.

CEDAR POSTS

The following quantities of cedar posts, 9 feet long, are estimated to weigh 24,000 lbs.:

2½ feet car.	4 ft. 9 in. high
30 " "	4 ft. 6 in. "
32 " "	4 ft. 3 in. "
33 " "	4 ft. 0 in. "
34 " "	3 ft. 10 in. "

GRAIN IN BULK.

The quantity in a car can be ascertained, with sufficient accuracy, by multiplying the internal length and breadth of the car together, and then by the height of the grain. Multiply this product by 1728 (number of inches in a square foot), and divide by 2150 (number of square inches in a bushel).

Thus:—Car 27 ft. 6 in. \times 8 ft. 7½ in. \times 2 ft. 1 in. = 494 ft. 1 in. 8 pts. Multiply by 1728, and \div 2150 = 400 nearly.

ROUND TIMBER.

1st. When all the sizes are in feet, multiply the length by the SQUARE of one-quarter of the mean girth, and the product will give the volume in cubic feet.

2nd. When the length is in feet and the girth is in inches, multiply as above, and divide by 144.

3rd. When all the dimensions are in inches, multiply as above, and divide by 1728.

Thus:—50 ft. long—girths 31.5 and 62.9 inches.

$$50 \times \left(\frac{31.5 + 62.9}{2} \div 4 \right)^2 = 50 \times 11.8^2 = 6962, \text{ and } \frac{6962}{144} = 48.347 \text{ feet.}$$

$$50 \times \frac{31.5 + 62.9 + 2^2}{16} \div 144 = \frac{111392}{16} \div 144 = 48.347 \text{ feet.}$$

The mean girth of Round Timber may be obtained by taking the circumference at both ends and in the centre, adding them together, and dividing by 3.

The girth of Spars should be arrived at by taking their diameter at one-third of their length from the abut or large end.

SQUARE TIMBER.

1st. When all the dimensions are in feet, multiply the product of the breadth by the depth, by the length, and the product will give the volume in cubic feet.

2nd. When one of the dimensions is in inches, and the other dimensions are in feet, multiply as above and divide by 12.

3rd. When two of the dimensions are in inches, and the other dimension in feet, multiply as above and divide by 144.

Thus: 20 ft. long and 15 in. square:— $15 \times 15 \times 20 = 4500$, and $4500 \div 144 = 31.25$ cubic feet.

The following are found to be average weights of Round and Square Timber:—

White Pine.....	48 lbs. per cubic foot,
Hemlock, Spruce, Red Pine.....	55 " " "
Ash, Elm, Maple, Cherry, Birch,	
Beech.....	60 " " "
Oak, Hickory.....	65 " " "
